Biophysical Society 2024

PHILADELPHIA, PENNSYLVANIA, USA
FEBRUARY 10–14, 2024

Three major changes are being implemented to the 2024 Annual Meeting program to increase opportunities for participation. Please read the changes below carefully BEFORE submitting your abstract.

I. "Symp Select" Speaker (Principal Investigators Only)

One additional speaker will be added to each Annual Meeting symposium as a "Symp Select" speaker.

If you are a principal investigator, you will have the option of choosing "Symp Select" during abstract submission. Symp Select speakers will speak for 15 minutes with 5 additional minutes for Q&A. Program chairs will select one "Symp Select" speaker for each of the 20 symposia.

Abstracts not selected for a "Symp Select" talk will automatically be considered for a platform presentation. Please indicate your platform presentation preference on the next page.

II. Platform Presenters can also Present a Poster

If selected for a platform talk you now have the option to also present your work in a poster session. If selected for a platform talk and want to present your work as a poster, please select Platform AND Poster" during abstract submission.

Abstracts not selected for platforms will be scheduled in an appropriate poster session.

III. Five-Minute Flash Talks from Abstracts

Instead of each platform having eight talks, this new change will allow for seven platform talks with three flash talks (5 minutes each). These flash talks will be selected from abstracts programmed as a poster. Flash talk presenters will also present their work in a poster session.
