

Joachim Mueller, University of Minnesota, Subgroup Chair

Biological Fluorescence Subgroup 2013 Symposium
Saturday, February 2, 2013
Philadelphia, Pennsylvania

1:00 PM, Jonas Ries, ETH Zürich, Switzerland

Novel Labeling Schemes for Single-Molecule Localization Microscopy

1:30 PM, David Piston, Vanderbilt University

Simultaneous Imaging of Vesicle Trafficking and Calcium-Mediated Exocytosis in Pancreatic Beta-Cells

2:00 PM, Michael Levene, Yale University

Invasive Optics for Watching the Brain Work

2:30 PM, Subgroup Business Meeting

2:45 PM, Break

3:15 PM, David Millar, Scripps Research Institute

Assembly and Dynamics of Nucleic Acid-Protein Complexes at the Single-Molecule Level

3:45 PM, Rong Li, Stowers Institute of Medical Research

The Role of Non-Uniform Membrane Diffusion and Protein-Lipid Micodomains in the Establishment of Cell Polarity

4:15 PM, Memorial for Bob Clegg

4:25 PM, Young Fluorescence Investigator Award & Lecture

4:50 PM, The Gregorio Weber Award & Lecture
